### Prerequisite & GPA Verification Checklist | BSN Second Career/Degree (CD2)

Use this form as a tool to accurately prepare your application for the BSN CD2 program. **THIS FORM IS NOT REQUIRED TO BE UPLOADED** but is highly recommended to help you track your preparation for a successful application.

#### RULES:

- Individual course grades must be a minimum of C/2.00 or better.
- Prerequisite GPA of all 8 courses must calculate to 3.00 or higher.
- If you do not have final grades in a prerequisite course at the time of submitting this form, please indicate the term in which you will complete the course and input "INPR" to indicate that the course is in progress.
- If you satisfied any prerequisite course with a test score (AP/IB/SAT/ACT/CLEP), please indicate this on the form by writing AP/IB/SAT/ACT/CLEP in the grade earned field.
- Pass/No Pass (P/N), Credit/No Credit (C/NC) and Satisfactory/Unsatisfactory (S/U) grades are not permitted.
- All courses must have grades from within the last 7 years. For the 2024 cohort, courses taken prior to January 2017 will not be accepted. SI/CI courses do not expire.
- Only one prerequisite course may be repeated within a 7-year period; original courses with a grade of C/2.00 or higher that were repeated for a better grade will not count as a repeat.
- Official transcripts and test scores must be submitted to WSU for verification. Directions on how to submit official transcripts are found at the end of this form.
- A single grade must be entered to calculate your GPA. If the course was a split course (example: one course for the lecture (3 credits)/one course for the lab (1 credit), for a total of 4 credits), please [utilize this GPA calculator to create a single GPA-equivalent grade for the course](#).
- All grades must be entered in their equivalent GPA form. Please use the following chart to provide the GPA equivalent for letter grades:

A	4.00
A-	3.67
B+	3.33
B	3.00
B-	2.67
C+	2.33
C	2.00
C- or below	NOT ACCEPTABLE; course must be retaken

## Calculate Your GPA

The credit value for each course is standardized for equity. If your class was more (or less) credits, it will still be calculated at the value indicated.

- 1) Calculate the honor points for EACH completed class:

$$\text{Honor Points} = \text{Grade (0.00-4.00)} \times \text{Credits}$$

- 2) Add all Honor Point values to create a single total:

$$\begin{aligned} &(\text{BIO 2270/71 Honor Points}) + (\text{BIO 2870 Honor Points}) \\ &+ (\text{CHM 1020 Honor Points}) \dots \text{and so on} \dots \end{aligned}$$

- 3) Add the total number of credits for all classes calculated in honor points:

$$\text{BIO 2270/71 (3)} + \text{BIO 2870 (5)} + \text{CHM 1020 (5)} \dots \text{and so on} \dots$$

- 4) Divide total honor points by total credits:

$$\text{Prerequisite GPA} = \text{Total Honor Points} / \text{Total Credits}$$

## GPA Worksheet
