# Nurse-Midwife Learning Outcomes

**At the completion of the Nurse-Midwife concentration, students will be able to:**

1. Demonstrate competence in the clinical practice of midwifery as characterized for Basic Midwifery Practice 2012 (American College of Nursing Midwives, 2012);
2. Practice collaboratively within the health care system while providing primary care to women and newborns;
3. Use midwifery knowledge, innovation, creativity, and cultural competence to adapt health care interventions based on the interrelationships among person, environment, and health;
4. Analyze current knowledge for midwifery practice, evaluate effectiveness of health care interventions and use evidence-based care in clinical practice;
5. Engage in scholarly activity to advance knowledge in women's health, newborn, and midwifery care and collect accurate clinical practice data/statistics, and;
6. Provide leadership in women's health care through active involvement in professional organizations, clinical teaching, and political awareness/involvement.
