

New Scholar Workshop: Getting a Scholarly Program Started

Jessica L. Spruit, DNP, CPNP-AC

October 6, 2020

Definitions of Scholarship

- Challenge by Boyer (1990) to embrace the full scope of academic work
- Scholarship of Discovery
- Scholarship of Teaching
- Scholarship of Practice (Application)
- Scholarship of Integration

Boyer, 1990

Definitions of Scholarship in Nursing

- Activities that systematically advance the teaching, research, and practice of nursing through rigorous inquiry that:
 1. Is significant to the profession
 2. Is creative
 3. Can be documented
 4. Can be replicated or elaborated
 5. Can be peer-reviewed

Scholarship of Teaching

*Produces knowledge
to support the
transfer of the science
and art of nursing
from the expert to the
novice*

- Examples:
 - Peer-reviewed publications
 - Case studies related to teaching-learning
 - Learning theory development
 - Accreditation or other comprehensive program reports
 - Positive peer assessments of teaching
 - Successful application of technology
 - Grant awards
 - Published textbooks, learning aids
 - Presentations related to teaching/learning

Scholarship of Practice (Application)

Encompasses all aspects of the delivery of nursing service where evidence of direct impact in solving health care problems or defining problems of a community is present

- Examples:
 - Peer-reviewed publications
 - Presentations related to practice
 - Consultation reports
 - Products, patents, license copyrights
 - Grant awards to support practice
 - State, regional, national, or international recognition as a master practitioner
 - Professional certifications, degrees, specialty credentials
 - Reports of projects, policy papers

Scholarship of Integration

Research/inquiry on the boundaries of converging fields, interpreting research into “larger intellectual patterns”

Critical analysis and interpretation

- Examples:
 - Peer-reviewed publications
 - Copyrights, licenses, patents, products
 - Published books
 - Positive peer evaluations of contributions to integrative scholarship
 - Interdisciplinary grant awards
 - Presentations
 - Policy papers designed to influence organizations or governments

Scholarship of Discovery

*Inquiry that produces
the disciplinary and
professional
knowledge at the
heart of academic
pursuits*

- Examples:
 - Peer-reviewed publications
 - Presentations
 - Grant awards
 - Mentorship of junior colleagues
 - Recognition as a scholar in an identified area
 - Positive peer evaluations of the body of work

Getting Started

Getting Started

- Identify your area of expertise
- Collaborate with colleagues
- Consider the opportunity for scholarship in everything you are already doing

Many Forms of Scholarship

EDUCATIONAL
LECTURES

PUBLICATIONS

Pathways to Publication

- Institution-specific documents
- Clinical practice guidelines
- Professional organization work groups
- Textbook chapters
- Manuscripts for journals
 - Case reports
 - Continuing education
 - Quality improvement
 - Integrative literature reviews
 - Policy analysis
 - Research projects

Identifying Opportunities

Reviews and Original Papers on Symptom Science: open call, no due date

Nursing Research invites papers with reviews and findings of original research focused on symptom science. Topics include basic and clinical research on biological, genetic and behavioral mechanisms underlying symptoms of acute and chronic conditions. Reviews should include characterization of symptom phenotypes, identification of potential biomarkers, and ultimately related to the development of clinical interventions. Symptoms should be self-reported perceptions of an individual's experience of disease or physical disturbance and can include experiences such as fatigue or pain. Phenotype description with genomic and other "omics" related measures are of interest as are potential biomarkers. Measurement of normal biological processes, pathogenic processes, or pharmacologic responses can be included. Suggestions for potential therapeutic and clinical interventions should be summarized.

Papers accepted for Symptom Science Reviews and Research will be published as features in regular issues and marked with a banner for "Symptom Science Series."

Call for Papers: Human Immunodeficiency Virus

JNP: The Journal for Nurse Practitioners is planning a special issue in January 2022 to update diagnostic and treatment information for experienced primary care nurse practitioners (NPs) about human immunodeficiency virus (HIV) matters. If your clinical practice area or research involves these matters, we invite your submission for this issue.

Journal of Research in Nursing CALL FOR PAPERS

Journal of Research in Nursing: Call For Papers

March 23, 2020 / QSEN Institute

FOCUS: Healthcare Quality and Safety

Call for Papers for a Special Issue: *Racial and Ethnic Disparities in Child and Adolescent Health Care*

We are pleased to announce the forthcoming publication of an issue on **Racial and Ethnic Disparities in Child and Adolescent Health Care**. In particular, we are interested in manuscripts on a wide range of issues that impact the health and well-being of racially and ethnically diverse children and their families. International and national reports indicate racial and ethnic disparities continue to be a foremost worldwide public health challenge.

Call for papers: Clinical Academic Nursing Careers

Submission Deadline: 30th October, 2020

Guest Editors: Caleb Ferguson, Catherine Henshall, Nancy Albert.

We are pleased to announce a Call for Papers for a Special Issue of *Journal of Clinical Nursing* with focus on Clinical-Academic Workforce Capacity Development.

Clinical-academic nursing careers are gaining profile. It is increasingly recognised that in order to promote excellence in nursing practice, research and education it is imperative that there is a strong nursing evidence base.

47th Annual Conference - Call for Abstracts and Symposia

New Frontiers in NP Education

Denver, CO | April 21-25, 2021

Submission Deadline
October 7, 2020 11:59 PM PT

Decision Deadline
December 15, 2020

Call for Competitive Abstracts

This is the official call for Competitive Abstracts for the Midwest Nursing Research Society's 45th Annual Research Conference, March 24-27, 2021 in Des Moines, IA.

SUBMISSION DETAILS

Call for Competitive Abstracts

DEADLINE: October 22, 2020 at 5:00 PM Eastern

MNRS is now accepting Research and Evidence-Based Practice Abstracts. Please note: All presenters **MUST** be active MNRS members in good standing to participate in the 2021 Annual Research Conference.

Each year, the American Association of Nurse Practitioners® (AANP) cordially invites all interested parties to submit proposals for national conference presentations.

The call for proposals for both 60-minute Presentations and Poster Presentations at the [2021 AANP National Conference](#) is now closed. Please note that Rapid Fire (20-minute) Presentations will not be offered at the 2021 AANP National Conference.

Industry Scientific Poster Presentations

Individuals and organizations interested in sharing their industry-related findings should check back in early 2021 for details related to AANP's Industry Scientific Poster Presentations. **Please do not submit Industry Scientific Poster Presentations using the processes described below.**
