6	9995 Dissertation Maintenance****	0 cr				

* Or equivalent course

** Sequencing of concentration courses, advanced methods, and residencies are flexible depending on students' needs, resource availability
Note there are 5 concentration courses in addition to an advanced methods course. Concentration courses may be taken in S/S

* **University Residency requirement met (two successive semesters of at least six graduate credits).

‡ Research residency is to be done over one semester, and must be completed before *Proposal Defense*. Satisfactory completion requires that students meet the core research competencies as outlined in the student handbook. Sequencing based on availability of research mentor.

‡‡ Pilot study must be done prior to Dissertation Proposal Defense . NOTE: there is one pilot study conducted over two semesters and separate from the Research residency.

‡‡‡ Teaching residency is to be done during one semester and must be completed before a student can graduate from the program. Successful completion requires that students meet the teaching competencies as outlined in the student handbook.

Program may be completed in less time if concentration, electives, or residencies are completed in the Spring/Summer semester or students elect more credits each term.

NUR 9990 is not required but students may register for 9990 if time is needed to prepare for qualifying exam or full time status is needed.

Students have a seven-year time limit to complete all requirements for the Ph.D. The time limit does not stop with a Leave of Absence. A student whose Ph.D. time limit has expired is regarded by the Graduate School as automatically terminated from the program unless the department submits an appropriately justified request for a time extension and the Graduate School approves that request.

<https://gradschool.wayne.edu/phd/time-extension>

90 graduate credits beyond the baccalaureate degree are required — 60 in coursework and 30 in dissertation research and preparation. Transferred credits may not be used to reduce the minimum requirement of 30 credits of coursework, excluding dissertation, that must be earned at WSU.
