*MSN Transfer credits: 6000 level or above Content area requirements - minimum - maximum semester hours:

Theory 3 - 6 cr

Research & Statistics: 6 -15 cr

Policy: 2- 6 cr or register for NUR 7222 Leadership in Heath Policy, Ethics & Change*

Nursing 6-12 cr

** Sequencing of concentration courses, advanced methods elective, and residencies will be flexible depending on students' needs, courses offered and faculty availability.

‡ Research residency is to be done over two semesters, both must be completed before *Proposal Defense*. Satisfactory completion requires that students meet the core research competencies as outlined in the student handbook. Sequencing based on availability of research mentor.

‡‡ Teaching residency is to be done during one semester and must be completed before a student can graduate from the program. Successful completion requires that students meet the teaching competencies as outlined in the student handbook.

Program may be completed in less time if concentration, electives, or residencies are completed in the Spring/Summer semester or students elect more credits each term.

Students have a seven-year time limit to complete all requirements for the Ph.D. **The time limit does not stop with a Leave of Absence.** A student whose Ph.D. time limit has expired is regarded by the Graduate School as automatically terminated from the program unless the department submits an appropriately justified request for a time extension and the Graduate School approves that request.

<https://gradschool.wayne.edu/phd/time-extension>

90 graduate credits beyond the baccalaureate degree are required — 60 in coursework and 30 in dissertation research and preparation.

Transferred credits may not be used to reduce the minimum requirement of 30 credits of coursework, excluding dissertation, that must be earned at WSU.
